

KEISER PNEUMATIC RESISTANCE SYSTEM

THE HEART OF KEISER PERFORMANCE

Every Keiser machine is powered by a single, essential component: the Keiser Air Compressor. It converts electrical energy into compressed air, delivering smooth, consistent resistance across all Keiser equipment. Built for reliability and engineered for results, the compressor is the quiet force behind the performance, safety, and precision Keiser is known for.

KEISER COMPRESSORS

KEISER PNEUMATIC RESISTANCE SYSTEM

Powered by air resistance (pneumatics), Keiser strength equipment weighs less and is quieter than iron-based machines. Compressed air is delivered to the machines through Keiser's air supply system, which features trim and outlets that are custom-designed to accommodate any installation requirements and blend into your gym layout.

LARGE COMPRESSOR

Designed to work behind the scenes away from the exercise area and engineered for durability, the Large Compressor features a dryer unit that supplies clean, dry air for up to as many as 18 Keiser machines.

SPECIFICATIONS

HEIGHT

28" / 711 mm

WIDTH

16" / 406 mm

LENGTH

49" / 1245 mm

WEIGHT

205 lbs / 93 kg

VOLTAGE

115V 50HZ-60HZ & 230V 50HZ-60HZ

SMALL COMPRESSOR

Quiet and with sleek housing, the Small Compressor is designed to be placed in the exercise area without being conspicuous to your customers. It features a dryer unit that supplies clean, dry air for up to as many as eight Keiser machines.

SPECIFICATIONS

HEIGHT

15.5" / 394 mm

WIDTH

14.5" / 368 mm

LENGTH

25.5" / 648 mm

WEIGHT

80 lbs / 36 kg

VOLTAGE

115V 50HZ-60HZ & 230V 50HZ-60HZ

ALUMINUM TRIM

- Versatile system discreetly hides the air line in aluminum trim and enables easy location of air outlets that's ideal for constantly changing layouts

WALL MOUNT

- Stainless steel plates mount flush with walls making air outlets as inconspicuous as electrical outlets at your gym

SYSTEM TUBING

- Chemical-resistant, flexible and durable polyethylene tubing easily attaches to air system outlets and Keiser machines
- Available in 1/2" and 3/8" sizes

SUB-FLOOR OUTLET

- 3" diameter plates mount flush with the floor beneath each Keiser machine and away from foot traffic
